

PPM developed in 2017 and continues to be the current PPM in February 2024

## Professional Practice Model (PPM)

The model that guides St. Vincent Nursing Practice

- < The pieces of stained glass reflect the elements of Relationship Based Care (RBC): professional nursing, teamwork, care delivery, leadership, caring & healing environment, resources, outcomes, quality, and accountability.
- < The Cross is a reminder that our ministry is a continuation of the healing ministry of Jesus Christ.
- < Patient & Family, Self, and Coworkers: the three primary relationships of RBC.
- < “The love of Christ impels us”, the motto of St. Vincent de Paul, our patron saint.
