USE CAUTION - EXTERNAL EMAIL

Good afternoon Ms. Lambert,

You will receive an invitation to a Hospital Learning Community Meeting. This meeting includes those hospitals which have agreed to participate in a program to provide naloxone to patients or their caregivers at discharge from the emergency room in the event of overdose or when the patient is leaving the ED with a high enough dose of opioids that overdose is a possible risk. I have attached a one page document to explain the program.

We have a signed MOA with CHI St. Vincent, both the Infirmary and the Hot Springs location, to participate in the program. Doug Ross is listed as the contact person. Would you now be the contact person for both locations or just one? It is important that establish a meeting with the responsible team at each location to set training dates, amount of naloxone to order for the locations, amounts of educational materials needed and other such details.

Could you please provide me with guidance of how to set up those meetings so that we can meet your needs to launch the program?

Pat Brannin
Naloxone Program Director
